

CMS-120 COOLANT MAINTENANCE SYSTEM

Efficiently and Quickly Drain & Fill Heavy Duty Cooling Systems

The Flo-Dynamics CMS-120 Coolant Maintenance System, with a single 20-gallon tank, allows a technician to quickly drain and refill a large capacity cooling system in minutes. Using push/pull technology, the CMS-120 simultaneously uses pressure and vacuum, speeding up both the draining and filling processes. Refilling without the need to spend hours bleeding air from a cooling system is easy, using push/pull technology and a vehicle's Flush-Face Quick Connect Coupler cooling system adapter. Without the need to use a drain pan, you can safely and quickly drain a 14-gallon cooling system in approximately 10 minutes, and refill without air pockets in approximately 13 minutes. The CMS-120 will save repair time costs while creating a safer shop environment by preventing coolant spills.

FEATURES

- Single 20-gallon tank with fluid level sight tube
- Easy mobility cart with heavy duty 8" casters
- Operates on shop air – no 120V or 12V power required
- Push/pull technology enables you to:
 - » Drain a 14-gallon cooling system in approximately 10 minutes
 - » Fill a 14-gallon cooling system without air pockets in approximately 13 minutes
- Easily perform a cooling system pressure leak check
- Easy to see coolant level in tank
- Internally coated tank prevents rust contamination
- Flush-Face Quick Connect Couplers available

SPECIFICATIONS

Dimensions: 56" H x 28" W x 24" D

Weight: 166 lbs.

Fluid Tank: 20 gallons

Power: 115 psi shop air

Hose Length: 13' outside of machine

Included Adapters
