

FLO- DYNAMICS®

TS460

**ONE MACHINE...
TWO PROFIT CENTERS!**

Automatic Transmission & Power Steering Fluid X-Changer

- Fully automatic operation allows easy revenue and profit without additional time investment.
- New 2.5 gallon per minute pump ensures rapid exchanges.
- Exchanges both transmission and power steering fluids.
- Superior filtration for longer machine life and less downtime.
- Portable, fully interactive. Works with vehicle's 12-volt battery for easy fluid exchanges.
- Diverter valve allows user to reverse flow without switching hoses, for more efficient operation.
- Advanced features mean faster fluid exchanges, for greater productivity.

Many **Advanced** Features Make the TS460 Fluid X-changer a **Profitable** Investment.

STATE-OF-THE-ART DESIGN

- Accurate sensor technology allows optimum fluid level to be maintained in vehicle's transmission.
- Two in-line 10-micron absolute fluid filters capture microscopic particles and contaminants.
- Easy to use adapters allow quick hookup to virtually any automobile make and model, saving time and money.
- Clear service hoses give visual confirmation of new and used fluid movements.
- Ergonomically correct working height means greater productivity, less stress and strain.
- Durable roto-cast polyethylene body and tanks prevent vehicle damage. The unit is also lightweight and durable, for easier handling and longer life.
- Large 5-inch locking caster wheels make machine easy to maneuver.
- Easy-access service panel provides hassle-free operations for greater efficiency.

PERFORMANCE-DRIVEN BENEFITS

- Fully automatic. Performs an entire exchange with the push of a button.
- Requires no pit, lift, ramp or auxiliary power supply, and utilizes vehicle's 12-volt battery, so it can be used anywhere.
- 2.5 gallon per minute pump ensures rapid exchanges.
- Diverter valve reverses fluid flow without having to switch hoses.

AUTOMATIC TRANSMISSION FLUID EXCHANGE BENEFITS

- Completes fluid exchange in minutes.
- No need to drop the transmission pan. So there's no spillage or mess.
- Waste fluid is drained at the touch of a button. So there's no need to turn the machine upside down. Less effort and downtime mean greater efficiency.
- Four capacity selections (4, 12, 16 and 20 qt.) allow for specified amounts of automatic transmission fluid to be pumped into the transmission, for more cost-effective servicing.

POWER STEERING FLUID EXCHANGE BENEFITS

- Replaces up to 95% of the old power steering fluid in minutes.
- Service hoses use the vehicle's reservoir to drain and refill power steering fluid, for efficient servicing.
- Remote pendant provides ease of operation for greater efficiency.
- Compartment for new fluid bottle makes fluid exchanges easy and hassle-free.
- Old fluid drains directly into the waste tank. So there is no mess, and cleanup is easy.

Specifications:

- Dimensions: 39 1/2"H x 23"W x 25 1/2"D
- Shipping Weight: 135 lbs.
- Fluid Tanks: 40qt. New & Waste
- Power: 12V DC from vehicle's battery

Fully interactive control panel provides easier operation with closer monitoring for greater efficiency, control and cost savings.

The TS460 fluid X-changer replaces virtually 100% of transmission & power steering fluid.

For more information, please contact:

- A. Roto-cast polyethylene body and tanks
- B. Fully interactive control panel
- C. Ergonomically correct working height
- D. 5-inch locking caster wheels
- E. Clear service hoses
- F. New power steering fluid bottle
- G. Diverter valve reverses flow
- H. Easy-access filters
- I. Easy-access service panel
