VacFill³

It doesn't
get any easier
than this!

COOLANT SERVICE MACHINE

The VacFill3 is faster, more efficient, and the preferred way of performing a coolant vacuum & fill service. Simply remove the radiator cap, insert the cone and begin the suction process. When you see no more old fluid coming out, switch to the desired fluid and it fills it to the top automatically.

FEATURES

- Fast 5 minute service
- Vacuums out unwanted air
- Easy connection to radiator mouth
- Uses only shop air
- Clear hose for visual effect
- Dual 7 gallon new fluid tanks
- Easy to operate

STATE-OF-THE-ART DESIGN

- 2 separate 7 gallon new fluid tanks
- 8 gallon waste fluid tank
- Recessed storage area
- Small footprint
- Extremely easy to use
- Vacuum gauge
- Universal cone adapter fits any vehicle
- Easy to move with two 10" rear wheels, two locking front casters, and handle
